# WHAT IS “IRP”?

“IRP” stands for ***International Registration Plan***. The IRP is a plan used for registering vehicles that travel in two or more member jurisdictions. (A jurisdiction may be a state or Canadian province).

*The International Registration Plan is a reciprocal agreement to promote and encourage the fullest possible use of the highway systems by authorizing apportioned registration of commercial vehicles, and the recognition of commercial motor vehicles proportionally registered in other jurisdictions.*

***The purpose of the IRP is to implement the concept of one registration plate for each vehicle.***

*All IRP member jurisdictions have agreed to allow one jurisdiction to collect registration fees (apportioned fees) for all jurisdictions at one time. The fees are then divided among the other IRP jurisdictions based on:*

- *Percentage of mileage travel in each jurisdiction;*
- *Vehicle specific information; and*
- *Maximum weight.*

*Member jurisdictions of the IRP must comply with three basic principles:*

- ☑ *A single registration plate*
- ☑ *A single registration cab card; and*
- ☑ *Allowing registrants to operate both interstate and intrastate movements.*

**IF YOU DO NOT OPERATE OR INTEND TO OPERATE IN TWO OR MORE JURISDICTIONS, LICENSE PLATES MAY BE PURCHASED AT THE NINETY-FIVE (95) LOCAL COUNTY CLERK OFFICES THROUGHOUT TENNESSEE.**

## *IRP APPORTIONED REGISTRATION WILL NOT-----*

- ✘ Waive or exempt a vehicle operator from obtaining operating authority from any jurisdiction in which the apportioned vehicle travels; or*
- ✘ Waive or exempt the payment of heavy vehicle use tax or motor fuel taxes in any state; or*
- ✘ Permit the truck operator to exceed the maximum size, weight and axle limitations in any jurisdiction.*

# ***72 HOUR TRIP PERMIT***

*An IRP 72 HOUR TRIP PERMIT is **required prior to entering a jurisdiction** for any vehicle having a registration, but not registered or apportioned for a particular jurisdiction. This permit allows both inter or intra movement in Tennessee.*

***72 Hours    72 Hours    72 Hours***

*The fee for a Tennessee IRP Trip Permit is **\$30.00 plus wire service fees** and is available through the following contractors:*

*Custom Permits                      1-800-669-5014*

*Fleet One                              1-800-738-7587*

# ***TENNESSEE RESTRICTED PLATES***

*The following license plates in Tennessee meet the definition of a “restricted” license plate. Tennessee does not have the wording “Restricted” on any plate and these plates can only be obtained through the ninety-five (95) County Clerk Offices.*

***Farm Truck*** – Any truck motor vehicle used in connection with the agricultural pursuits usual and normal to the owner’s farming operations, such as the transportation of products of the soil, livestock, poultry, seed or any materials to be used by the owner in production, cultivation, growing, or harvesting of agricultural commodities; also for use incidental to farming as the transportation of farm products or materials that may be used for its improvement or promote its operation.

*Farm truck shall not be so construed as to permit the vehicle’s use either part time or incidentally in the conduct of any commercial enterprise, or for the transportation of farm products after such commodities have entered the “channels of commerce,” as for example in the “house to house” delivery of milk. T.C.A. 55-1-119*

***Fixed Load*** – A vehicle not designed or used to carry, convey or move any freight, property, article or thing over the highways, except its own weight of any equipment, appliance or apparatus constructed as a part of, or permanently attached to the body of the vehicle. “Fixed Load” includes well-drilling apparatus, cranes and portable feed mills and such other vehicles as are within the general terms hereof, the primary use of which is not upon the highways and streets of this state, but does not include wreckers or tow cars equipped with cranes, hoists or dollies and used for transporting wrecked motor vehicles or motor vehicles designed to deliver ready mixed concrete. T.C.A. 55-1-117

# **TENNESSEE RESTRICTED PLATES**

**(Continued)**

**Special Mobile Equipment** – A vehicle not designed or used primarily for the transportation of persons or property and only incidentally operated or moved over a highway or street, including, but not limited to: ditch-digging apparatus and road construction and maintenance machinery, such as asphalt spreaders, bituminous mixers, bucket loaders, tractors other than truck-tractors, ditchers, leveling graders, fishing machines, motor graders, road rollers, scarifiers, and scrapers, track mounted power shovels and drag lines. Special mobile equipment: does not include dump trucks or truck mounted transmit mixers, earth movers, cranes, shovels, well-boring apparatus and feed mills, such as may be fixed load vehicles or other vehicles designed for the transportation of persons or property to which machinery has been attached, even though the movement over the streets and highways may be only incidental to the operation of such vehicle. T.C.A. 55-1-109

**Special Zone** – A freight motor vehicle which is to be operated exclusively within a zone limited to the streets of a designated municipal corporation and to the highways for a distance not to exceed fifteen (15) air miles beyond the limits of the municipality, to apply for and be issued a special municipal zone license. In counties having a metropolitan form of government, the county line shall be the limit for the operation of motor vehicles registered under this special license. T.C.A. 55-4-113

*The trucking-related business within the base jurisdiction must constitute more than just credentialing, distance and fuel reporting, and/or answering a telephone. # ***MOTOR BUS***

## ***APPORTIONMENT***

*Carriers of passengers operating interstate on a regular scheduled route must be registered as an apportioned fleet.*

### ***DETERMINATION OF TOTAL BUS MILES***

*There are two options offered to the registrant for the purpose of summing total bus miles. These are:*

- 1. To sum all actual in-jurisdiction miles, or*
- 2. To sum the scheduled routed miles per jurisdiction from the farthest point of origination to the farthest point of destination of the scheduled pool.*

***Buses used exclusively for chartering are exempt from apportioned registration.***

*“Chartered Party” means a group of persons who, pursuant to a common purpose and under a single contract, and at a fixed charge for the vehicle in accordance with the carrier’s tariff, lawfully on file with the U.S. Department of Transportation, have acquired the exclusive use of a passenger-carrying motor vehicle to travel together as a group to a specified destination or for a particular itinerary, either agreed upon in advance or modified by the chartered group after having left the place of origin.*

When registration fees are paid on apportionable vehicles, full and free reciprocity shall be granted to all trailers, semi-trailers and auxiliary axles used in the combination. # ***FEDERAL HEAVY HIGHWAY VEHICLE USE TAX RETURN – FORM 2290***

***Proof of payment of the federal highway use tax is a condition of vehicle registration***

Any highway motor vehicle, **registered** or **required to be registered** in your name, with a taxable gross weight\* of 55,000 pounds or more is subject to the Federal Heavy Vehicle Use Tax.

In order to register a Heavy Highway Vehicle, proof of payment or suspension of the tax must be provided. Internal Revenue Service Form 2290 is used to report and pay the tax due or to claim suspension of the tax when the vehicle will be used 5,000 miles or less (7,500 miles or less for an agricultural vehicle) during the tax period.

The tax year for a Heavy Highway Vehicle runs from July 1 of one year thru June 30 of the next. Beginning with the FORM 2290 for the tax year that began on July 1, 2005 and ends on June 30, 2006, the balance due shown on the form must be paid in full by the due date of the return. Payment can be made by check, money order or electronically through the Electronic Federal Tax Payment System (EFTPS). The tax year for a brand new truck begins with the month first placed in service and ends on the following June 30. The tax return is due on the last day of the month following the month placed in service and a pro-rated tax will be computed. If the 2290 tax return is not filed by the appropriate due date, the installment privilege is not an option and full payment of the tax is required in order to receive a stamped Schedule 1.

Registrants are required to surrender proof that the Federal Heavy Vehicle Use Tax has been paid or that the tax has been suspended. A copy of Schedule 1 (Form 2290) stamped by the IRS is proof of payment or suspension. If a stamped copy of Schedule 1 (Form 2290) is not available, a non-receipted copy of Form 2290 with Schedule 1 and a copy of both sides of the cancelled check used for payment may be accepted.

## **Exception for newly purchased vehicles (new or used):**

No proof of payment is required for a newly purchased vehicle if you present the state a copy of the bill of sale showing that the vehicle was purchased within the last 60 days. This exception is for registration only, **the HEAVY HIGHWAY VEHICLE USE TAX RETURN; FORM 2290 is still required and must be filed and paid no later than the last day of the month following the month of purchase**. For example, if the truck was purchased in October, the truck can be registered with the state, within 60 days of the purchase date, and tags received without providing Form 2290 and Schedule 1; however the Form 2290 must be filed with the IRS and paid no later than November 30, in this example, to avoid a penalty for filing and paying late.

\*Taxable gross weight of a vehicle is the total of the vehicle fully equipped for service plus the actual weight of the unloaded trailer plus the weight of the maximum load customarily carried. In the case of a bus, the taxable gross weight is the unloaded weight of the bus plus 150 pounds for each seat provided for passengers and driver.

## ***HOW IRP FEES ARE APPORTIONED***

1. *Total fleet mileage for the preceding year divided by apportioned jurisdiction mileage to determine a jurisdiction percent.*
2. *Determine the full year fee per apportioned jurisdictions.*
3. *Multiply the jurisdiction percent determined in #1 by the fee determined in #2.*

*The following is an example of fee calculations for a fleet that operated a total of 100,000 miles in four (4) jurisdictions.*

<i>Jurisdiction</i>	<i>Jurisdiction Mileage</i>	<i>Percent of Total</i>		<i>Full Year Fee Per Jurisdiction</i>	<i>Apportioned Fee</i>
<i>Tennessee</i>	<i>45,000</i>	<i>(45%</i>	<i>X</i>	<i>\$1,366.00)</i>	<i>\$614.70</i>
<i>Alabama</i>	<i>25,000</i>	<i>(25%</i>	<i>X</i>	<i>\$780.00)</i>	<i>\$195.00</i>
<i>Georgia</i>	<i>15,000</i>	<i>(15%</i>	<i>X</i>	<i>\$725.00)</i>	<i>\$108.75</i>
<i>Kentucky</i>	<i>15,000</i>	<i>(15%</i>	<i>X</i>	<i>\$1,280.00)</i>	<i>\$192.00</i>
<i>TOTALS</i>	<i>100,000</i>	<i>100</i>			<i>\$1,110.45</i>

*The above example does not include Tennessee administrative and transaction fees.*

*Of the total funds, Tennessee would retain \$614.70 and would disburse the remaining money to the other apportioned jurisdictions.*

# ***STEP-BY-STEP RENEWAL PROCESS***

*A computer generated renewal packet will be mailed to every registrant approximately sixty days prior to the registration expiration. The packet will contain:*

- ☒ ***Registrant Information***  
*(Name, Addresses, FEIN, SSN, US DOT #)*
- ☒ ***Weight Group***  
*(Apportioned jurisdiction and registered weight group). There will be one page per weight group.*
- ☒ ***Vehicle Information***  
*(Owner equipment #, VIN, year, make, vehicle type, axles/seats, fuel, combined axles, unladen weight, combined weight, purchase price, date of purchase, lessor, lessee, TIN, US DOT # and license plate number)*
- ☒ ***Preprinted MCS-150***
- ☒ ***Schedule B – Blank Mileage***
- ☒ ***Estimated Distance Chart***

## Step

***Open the renewal packet immediately, and:***

- ☒ ***Read all documents.*** The Motor Carrier Manual is available by mail, upon request or <http://www.tennessee.gov/revenue/motorcarrier/index.htm>.

### ***WE MUST BE ABLE TO READ ALL INFORMATION***

- ☒ ***Complete and update the MCS-150 form.*** All information provided will be verified and updated to the Federal Motor Carrier Safety Administration (FMCSA). You may update this information on-line at <http://www.fmcsa.dot.gov>.
- ☒ ***Complete and update the computer-generated Schedule A.*** Changes should be made by drawing a line through the incorrect information and writing or typing in the new information above the incorrect information .
- ☒ ***Complete Schedule B – Mileage***  
*The mileage-reporting period will be July 1 through June 30 of the year immediately preceding the registration year for which registration is sought.*  
***Actual miles accrued must be used, even if they are for a partial-year operation within the reporting period.***  
  
***Report miles for all jurisdictions where vehicles traveled. If apportionment is not desired, place an “N” in the \_\_\_\_ beside each jurisdiction.***  
  
***For actual miles, place an “A” in the \_\_\_\_ before the mileage.***

## Step

(Continued)

*The estimated distance chart is available from the IRP Office or:*

<http://www.tennessee.gov/revenue/motorcarrier/index.htm>. *This chart is based on total actual distance and total vehicles based in Tennessee for the previous reporting period. This chart is updated September of each year.*

***Estimated Distance** – New carriers that applied after April 1 may estimate distance for the next registration year. Carriers, who applied before April 1, must report **actual** distances or be charged more than 100 percent for any estimated distances. Carriers, who added jurisdictions after April 1, may show estimated distance for those jurisdictions on their next year's renewal.*

***All second-year distance estimates except as stated above will be charged more than 100 percent fees.***

*The estimated distance chart has been designed to assist you when registering as a new carrier or adding a new jurisdiction to your existing fleet when you cannot estimate the distance of your operation. This distance chart is based on fleet distance. If you do not use the chart, you must estimate the distance for one year of operation and provide a detailed explanation of how estimated distance was determined.*

*Example: 4 trips from Manchester, TN to Atlanta, GA, on I-24 to I-75 (180 miles x 4 trips = 1,440 miles).*

*NOTE: If you add a new jurisdiction and do not provide an estimate, or fail to provide an explanation for your estimates, we will use the estimated distance chart.*

# ***RECORD RETENTION***

*All registrants must be aware of their responsibility for maintaining accurate records. These records must substantiate the miles the registrant has reported. IRP records must be retained for three years after the close of the registration year.*

*If records are not available to substantiate the information shown on the registrant's application, the registrant shall be given thirty (30) days written notice to provide such records.*

*On-board recording devices may be used in lieu of or in addition to handwritten trip reports for IRP record keeping purposes. If a registrant chooses this option, any device or electronic system used in conjunction with a device shall meet the requirements identified in the Audit Procedures Manual.*

*Other equipment monitoring devices, such as those that transmit or may be interrogated as to vehicle location or travel, may be used to supplement or verify handwritten or electronically generated trip reports.*

# ***IRP AUDIT REQUIREMENTS***

## **PRESERVATION OF RECORDS FOR AUDIT**

Any registrant whose application for proportional registration has been approved shall preserve the “Operational Records” on which it is based for a period of three (3) years after the close of the registration year. Such records shall be made available to the department at its request for audit as to accuracy of computation, payments, and assessments for deficiencies or allowances for credits, during the normal business day.

### **Operational Records**

“Operational Records” shall include but are not limited to all documents supporting miles traveled such as fuel reports, trip sheets, logs, etc.

An acceptable source document used to verify fleet mileage through the use of an “INDIVIDUAL VEHICLE DISTANCE RECORD.” An I.V.D.R. should contain the following basic information:

- Registrant’s name;
- Date of trip (Beginning and Ending);
- Trip Origin and Destination
- Route traveled and/or beginning and ending odometer or hub odometer reading of the trip;
- Mileage by jurisdiction;
- Total trip miles;
- Vehicle Unit Number or Identification Number (power unit);
- Assigned Fleet number of Vehicle;
- License number assigned to Power unit;
- Trailer number (if combination);
- Driver’s name or signature

# ***IRP AUDIT***

## ***REQUIREMENTS***

***(Continued)***

Computer printouts are merely recaps and are not acceptable at face value. Computer printouts must be supported by an I.V.D.R. in order to be of any use during an audit.

In recording the actual mileage of a vehicle, the registrant must record all movement (intrastate and interstate) including loaded, empty, deadhead, and/or bobtail miles. While operating under trip permits, registrants should maintain an individual mileage record on each apportioned vehicle and mileage should be summarized as actual miles traveled in each member's jurisdiction, each other jurisdiction, and total miles. From these monthly summaries the yearly recap should be prepared for each jurisdiction and total of all jurisdictions.

As long as the method used is consistent and accurate, the mileage figures to be entered on the I.V.D.R. can be obtained from various sources such as odometer and/or hub odometer readings, or state maps. However, if individual trip miles recorded in the various jurisdictions are questionable in the opinion of the auditor, then official jurisdiction mapping software shall be the final authority unless proven otherwise by an approved method of calculation.

In the event a registrant operates more than one (1) apportionable fleet, the registrant must maintain a separate monthly and yearly recap summary for each fleet.

### **Lessor Responsibility**

It shall be the responsibility of the lessor in a trip lease situation to report all miles accumulated by the apportioned units.

IRP-Audit Section

# ***IRP ENFORCEMENT FACTS***

*Enforcement personnel refer to the IRP cab card as proof that vehicles are properly registered!*

**Apportioned vehicles not displaying:**

- *a current license plate and a current cab card,*
  - *a valid temporary authorization permit,*
  - *or a valid trip permit,*
- will be in violation of the law and the driver will be subject to citations, assessments and fines in all jurisdictions traveled.***

**It is the responsibility of the driver to be fully aware of the requirements in all jurisdictions prior to operating in those jurisdictions.**

# ***IRP DEFINITIONS***

***APPORTIONABLE FEE*** – Any periodic recurring fee required for licensing or registering vehicles, such as, but not limited to, registration fees, license or weight fee.

***APPORTIONABLE VEHICLE*** – Any vehicle, except recreational vehicles, vehicles displaying restricted plates, city pick up and delivery vehicles, buses used in transportation of chartered parties, and Government-owned vehicles, used or intended for use in two or more member jurisdictions that allocate or proportionally register vehicles and is used for the transportation of persons for hire or designed, used or maintained primarily for the transportation of property and:

1. *Is a power unit having two axles and a gross vehicle weight or registered gross vehicle weight in excess of 26,000 pounds; or*
2. *Is a power unit having three or more axles, regardless of weight; or*
3. *Is used in combination, when the weight of such combination exceeds 26,000 pounds*

*Vehicles, or combinations thereof, having a gross weight of 26,000 pounds or less, and buses used in transportation of chartered parties may be proportionally registered at the option of the registrant.*

***AXLE*** – An assembly of a vehicle consisting of two or more wheels whose centers are in one horizontal plane, by means of which a portion of the weight of a vehicle and its load, if any, is continually transmitted to the roadway. For purposes of registration under the IRP, an “axle” is any such assembly whether or not it is load-bearing only part of the time. For example, a single-unit truck with a steering axle and two axles in a rear-axle assembly is an apportionable vehicle even though one of the rear axles is a so-called “dummy,” “drag,” “tag” or “pusher” type axle.

***AUDIT*** – A physical examination of a registrant’s operational records including source documentation to verify fleet distance and accuracy for a registrant’s record keeping system for that fleet. The examination will be of the records maintained for a fleet during the respective preceding year. This does not preclude an audit of multiple fleets for multiple years. The purpose of the audit is to determine the proper total distance traveled and the percentage of distance traveled in each jurisdiction. These percentages equate to the proper registration fees owed by the registrant for a particular fleet or the registration fees owed to the registrant for a particular fleet.

***BASE JURISDICTION*** – For the purpose of fleet registration, the jurisdiction where the registrant has an established place of business, where mileage is accrued by the fleet and where operational records of such fleet are maintained or can be made available in accordance with the provisions of Article XVI, of the International Registration Plan.

# ***IRP DEFINITIONS***

***(Continued)***

***ESTABLISHED PLACE OF BUSINESS*** – a physical structure located within the base jurisdiction that is owned, leased, or rented by the fleet registrant. The physical structure shall be designated by a street number or road location. A post office box is not sufficient to satisfy this requirement. This physical structure must be open during normal business hours and have located within it:

- 1. A telephone(s) publicly listed in the name of the fleet registrant.***
- 2. A person(s) in the permanent employment of the registrant conducting the fleet registrant's trucking-related business.***
- 3. The operational record of the fleet and the maintenance of such records, unless such records can be made available.***

***The trucking-related business within the base jurisdiction must constitute more than just credentialing, distance and fuel reports, and/or answering a telephone. Employees in the permanent employment of the registrant, not contractual labor, must be performing the trucking-related duties. A jurisdiction may require whatever information the jurisdiction deems pertinent to show that the registrant has an established place of business within the jurisdiction and that all proper fees and taxes are paid.***

***FLEET*** – One or more apportionable vehicles.

***HOUSEHOLD GOOD CARRIER*** – a carrier handling:

- (a) personal effects and property used or to be used in a dwelling;***
- (b) furniture, fixtures, equipment, and the property or stores, offices, museums, institutions, hospitals or other establishments, when a part of the stock, equipment, or supply of such stores, offices, museums, institutions, including object of art, displays and exhibits, which, because of their unusual nature or value, require the specialized handling and equipment usually employed in moving household goods.***

***I.V.D.R.*** – “Individual Vehicle Distance Record” and is the original record generated in the course of actual vehicle operation and is used as a source document to verify the registrant's application for accuracy.

***JURISDICTION*** – A country or a state, province, territory, possession, or federal district of a country.

***LEASE*** – A written document vesting exclusive possession, control and responsibility for the operation of the vehicle to the lessee for a specific period of time.

- (a) A long-term lease is for a period of 30 days or more***
- (b) A short-term lease is for a period of fewer than 30 days.***

***LESSEE*** – a person, firm or corporation which has the legal possession and control of a vehicle owned by another under terms of a lease agreement.

# ***IRP DEFINITIONS***

***(Continued)***

***LESSOR*** – a person, firm or corporation which, under the terms of a lease, grants the legal right of possession, control of, and responsibility for the operations of the vehicle to another person, firm or corporation.

***OWNER-OPERATOR*** – A person, firm or corporation leasing an apportioned motor vehicle with driver to a motor carrier.

***OWNER*** – A person, firm or corporation, other than a lienholder, holding legal title to a vehicle.

***PRECEDING YEAR*** – The period of twelve consecutive months immediately prior to July 1<sup>st</sup> of the year immediately preceding the commence of the registration or license year for which apportioned registration is sought.

***PRISM*** – (Performance and Registration Information Systems Management) A cooperative Federal/State program to link Safety Fitness to Vehicle Registration and was mandated by Section 4003 of the ISTEA of 1991.

***REGISTRANT*** – A person, firm or corporation in whose name or names a vehicle is properly registered.

***REGISTRATION YEAR*** – The twelve-month period during which the registration issued by the base jurisdiction is valid according to the laws of the base jurisdiction.

***TRACTOR*** – A motor vehicle designed and used primarily for drawing other vehicles, but not so constructed as to carry a load other than part of the weight of the vehicle and load so drawn.

***TRIP PERMIT*** – A temporary permit issued by a jurisdiction in lieu of regular registration or reciprocity.

***TRUCK*** – A motor vehicle designed, used or maintained primarily for the transportation of property.

# ?????? ABOUT THE IFTA

## ***Who Shall Obtain an IFTA License in Tennessee?***

Any person based in Tennessee operating a qualified motor vehicle(s) in two or more member jurisdictions; the qualified motor vehicle is registered in Tennessee; and Tennessee is where the operational control and records of the licensee's qualified motor vehicles are maintained or can be made available; and where some travel is accrued by qualified motor vehicles within the fleet. The commissioners of two or more affected jurisdictions may allow a person to consolidate several fleets that would otherwise be based in two or more jurisdictions.

In lieu of motor fuel tax licensing under this Agreement, person may elect to satisfy motor fuels use tax obligations on a trip-by-trip basis.

## ***TEMPORARY FUEL USE PERMIT***

The permit may be issued for a period of time not to exceed seven (7) consecutive days and shall be valid only for the particular vehicle for which it has been issued. **The 7-DAY TEMPORARY FUEL USE PERMIT is required prior to entering Tennessee.** The fee for a Tennessee Temporary Fuel Use Permit is **\$30.00 plus wire service fees** and is available through the following contractors:*

### ***Who Will Not Be Issued an IFTA License?***

A license will not be issued if the applicant has been previously licensed under this Agreement and that license is still under revocation by any member jurisdiction or the application contains any misrepresentation, misstatement, or omission of information required in the application.

### ***What Can I Do If My License Has Been Revoked In Another Jurisdiction, And I Want To Register In Tennessee?***

A former licensee whose license has been revoked may have that license reinstated. Before a license may be reinstated, the base jurisdiction may require a reinstatement fee in accordance with the existing jurisdictional laws. The base jurisdiction may also require the reinstated licensee to post a fuel tax bond in an amount sufficient to satisfy any potential liability to all member jurisdictions.

### ***What Information Will Be Provided To Me As a Licensee?***

This manual will provide licensees and prospective licensees with all information required to enable them to comply with all the terms of the IFTA.

### ***Does Tennessee exempt any fuels?***

Tennessee provides refunds for licensees who have a refund permit issued through the Tennessee Department of Revenue, Audit Division. These refunds relate to specialized equipment and some restrictions apply:

**All fuel placed in tanks of qualified motor vehicle(s) will be considered taxable.** The licensee is not allowed to place dyed fuel or tax-paid fuel which has been mixed with any untaxed product in the supply tank of a qualified motor vehicle and report the fuel as tax paid on the IFTA tax return. For detailed information contact (615) 741-3501.

***What Tax-Exempt Miles  
Are Authorized Under The IFTA?***

**Tennessee does not authorize any tax-exempt miles.**

For reporting tax-exempt miles or kilometers, the licensee is required to obtain the definition of distances that qualify for tax exemption status for the various jurisdictions of the agreement.

***What are the licensing requirements for Lessor,  
Lessee and Household Goods Carriers?***

**Short-Term Leases** In the case of a short-term motor vehicle rental, by a lessor regularly engaged in the business of leasing, or renting motor vehicles without drivers, for compensation to licensees or other lessees of 29 days or less, the lessor will report and pay fuel use tax unless the following two conditions are met:

The lessor has a written rental contract which designates the lessee as the party responsible for reporting and paying the fuel use tax; and

The lessor has a copy of the lessee's IFTA fuel tax license, which is valid for the term of the rental.

**Long-Term Leases** A lessor regularly engaged in the business of leasing or renting motor vehicles without drivers for compensation to licensees or other lessees may be deemed to be the licensee, and such lessor may be issued a license if an application has been properly filed and approved by the base jurisdiction.

**Household Goods Carriers** In the case of a household goods carrier using independent contractors, agents, or service representatives, under intermittent leases, the party liable for motor fuel use tax shall be:

The lessee (carrier) when the qualified motor vehicle is being operated under the lessee's jurisdictional operating authority. The base jurisdiction for purposes of this Agreement shall be the base jurisdiction of the lessee (carrier), regardless of the jurisdiction in which the qualified motor vehicle is registered for vehicle registration purposes by the lessor or lessee.

The lessor (independent contractor, agent, or service representative) when the qualified motor vehicle is being operated under the lessor's jurisdictional operating authority. The base

jurisdiction for purposes of this Agreement shall be the base jurisdiction of the lessor, regardless of the jurisdiction in which the qualified motor vehicle is registered for vehicle registration purposes.

### **Independent Contractors**

**Short-Term Leases.** In the case of a carrier using independent contractors under short-term/trip leases of 29 days or less, the trip lessor will report and pay all fuel taxes.

**Long-Term Leases.** In the case of a carrier using independent contractors under long-term leases (30 days or more), the lessor and lessee will be given the option of designating which party will report and pay fuel use tax. In the absence of a written agreement or contract, or if the document is silent regarding responsibility for reporting and paying fuel use tax, the lessee will be responsible for reporting and paying fuel use tax. If the lessee (carrier) through a written agreement or contract assumes responsibility for reporting and paying fuel use taxes, the base jurisdiction for purposes of this Agreement shall be the base jurisdiction of the lessee, regardless of the jurisdiction in which the qualified motor vehicle is registered for vehicle registration purposes by the lessor.

### ***How Can I Obtain Credit For Tax Paid Purchases?***

In order for the licensee to obtain credit for tax paid purchases, a receipt or invoice, a credit card receipt or microfilm/microfiche of the receipt or invoice must be retained by the licensee showing evidence of such purchases and tax having been paid. Licensees are not required to submit proof of tax paid purchases with their tax returns.

An acceptable receipt or invoice for tax paid purchases taken as credit must include, but not be limited to; date of purchase; seller's name and address; number of gallons or liters purchased; fuel type; price per gallon or liter or total amount of sale; unit numbers; and purchaser's name.

### ***How May I Obtain Credit For Tax Paid Fuel Withdrawn From Bulk Storage?***

Storage fuel is normally delivered into fuel storage facilities by the licensee, and fuel tax may or may not be paid at the time of delivery.

A licensee may claim a tax-paid credit on the IFTA tax return for fuel withdrawn from bulk storage only when the fuel is placed into the fuel tank of a qualified motor vehicle; the bulk storage tank is owned, leased, or controlled by the licensee; and either the purchase price of the fuel includes fuel tax paid to the member jurisdiction where the bulk fuel storage tank is located or the licensee has paid fuel tax to the member jurisdiction where the bulk fuel storage tank is located.

In the case of withdrawals from licensee-owned, tax-paid bulk storage, credit may be obtained if the following detailed records are maintained: date of withdrawal; number of gallons or liters; fuel type; unit number; and purchase and inventory records to substantiate that tax was paid on all bulk purchases.

When fuel is withdrawn from the licensee's own bulk storage and placed in its qualified motor vehicles, the licensee must maintain adequate records to distinguish fuel placed in qualified versus non-qualified motor vehicles for all member jurisdictions.

### ***Am I Qualified for IFTA?***

If you have a Qualified Motor vehicle, *a motor vehicle used, designed or maintained for transportation of persons or property; and (1) having two axles and a gross vehicle weight or registered gross vehicle weight exceeding 26,000 pounds or 11,797 kilograms; or (2) having three or more axles regardless of weight; or (3) is used in combination, when the weight of such combination exceeds 26,000 pounds or 11,797 kilograms gross vehicle weight or registered gross vehicle weight. Qualified motor vehicle does not include recreational vehicles.*

**NOTE:** *Tennessee will exempt the following from IFTA registration. These exemptions may or may not be the same in other member jurisdiction. Tax return interest shall be calculated from the date tax was due for each month or fraction thereof until paid.

Audit interest shall be calculated separately for each jurisdiction. Audit interest shall accrue monthly on the cumulative net tax balance owed to a jurisdiction until paid. A cumulative net tax balance is the amount of additional tax owed or tax overpayment made to a jurisdiction immediately following the due date of any reporting period taking into account all prior additional tax owed or overpayments made to a jurisdiction during the audit period. The cumulative net tax balance shall be adjusted immediately following the due date of any subsequent reporting period to reflect tax owed or overpayment made for that reporting period. A full month's interest shall accrue for any portion of a month on which tax owed remains unpaid. # Who Should Register For The

## SINGLE STATE REGISTRATION PROGRAM

Motor carriers operating for-hire under a Certificate or Permit issued by the Federal Motor Carrier Safety Administration (FMCSA) must participate in the Single State Registration System (SSRS Program).

The SSRS Program creates a single point of contact with a base state for motor carriers to register their authority in all states they need to operate. The base state is determined by the principal place of business of the motor carrier. A principal place of business is a single location that serves as a motor carrier's headquarters and where it maintains or can make available its operation records. If the motor carrier's base state does not participate in the program, then the base state must be the state which the carrier will operate the most vehicles during the next registration year. Carriers must pay a per vehicle fee for each SSRS state where vehicles will operation. Fees are determined by the state fee multiplied by the total number of vehicles per state.

This program reporting requirements for insurance and process agent information has to be on file in two places, with the Federal Motor Carrier Safety Administration and the base state, in this case Tennessee Department of Revenue. Carriers must contact their base state to add states or vehicles to their Single State Registration receipt.

The federal definition of a for-hire motor carrier is a person engaged in the transportation of goods or passengers for compensation. To assist you in meeting the federal requirements, we are providing you with a telephone number and their web site. Telephone: (202) 366-9805 or <http://www.usdotnumberregistration.com>.
